Attn: Transportation Services

Re: MPS Student Transportation Services

To whom it may concern,

As you may know, Milwaukee Public Schools will be delivering instruction virtually and will not be providing student transportation services for public school students. In accordance with Wis. Stat. § 121.54, Milwaukee Public Schools will not provide student transportation services for private school students as well, neither in the form of yellow bus services nor reimbursement payments for services rendered by schools or families themselves.

We continue to monitor the effects of COVID-19 in our community to help guide our decision of when to move to in-person instruction. Should we move to in-person instruction in the future, we may elect to provide student transportation services at that time. We will keep you abreast of any changes.

Sincerely,

Calvin Fermin
Deputy Superintendent
