# Rethinking Data

# Enter WISEdata

In 2012 the state of Wisconsin started the WISEdata initiative with the goal of collecting and maintain comprehensive, high-quality education data from all K-12 public and private schools in Wisconsin.

This would open the door for better data quality and consistency, accountability and transparency in the department of education and ease in making data-driven decisions for the future.

Private schools benefit by:

- Improved access to state and federal funding.
- Improves access to professional development and inter-data cooperation.

# Helpful Hints/Tips

- Use Student ID integration to pull WISEids
  - Use batch actions to enter data for your Choice students
  - If a student leaves your school, enter their Exit date and type as soon as possible
  - Check often on your WISEdata site to make sure that your data is coming through and that it is accurate
  - Connect with your provider's support and give them read-only access to data
-

# Important Dates

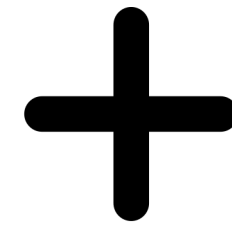

- PI-1207 Due **OCTOBER 15th!**
  - **DECEMBER 5TH:** Snapshots are taken
  - **DECEMBER 15th:** Deadline for corrections of the 2023-2024 applications
-

# Choose Certified
